London's most distinguished beauty expert

Madame JACOBSON

recommends one treatment ... and one only to retain the charm of facial loveliness

"I urge my clients to use only the soap blended of palm and olive oils. It provides that absolute skin cleanliness which must be the foundation of beauty."

11/12 DOVER STREET, LONDO

Royalty and the most fashionable women in

the British Isles learn from Madame Bertha

Jacobson a simple home treatment to keep

the skin lovely and youthful.

years, entrusted all their beauty blems to Madame Bertha Jacob son of London's select Westend. Those in search of the technique of beauty culture consider her teaching invaluable.

After 22 years' experience as beauty dictator, Madame Jacobson turns to one of the simplest of all beauty treatments for home use.

Madame Jacobson's invaluable advice

"To enable my clients to safeguard their complexions-to retain radiant skin texture," says Madame Jacobson, "I provide them with my own special Skin Food Creme to be used at night and I ask them to use my famous Skin Tonic after cleansing the skin.

"I urge them to use no soap other than Palmolive, as I have found that the bland oils of which this soap is made provide the absolute skin cleanliness which must be the foundation of beauty," Mme. Jacobson writes us. "At the same time, I warn them of all the harsh effects of soaps not made exclusively of these oils."

In these brief phrases, London's chief exponent of beauty

ROYALTY and the smart culture voices an opinion held by specialists on skin care women of London have, for all over the world.

Why palm and olive oils

The poisonous and dangerous secretions of dirt and dust, of make-up and cream which find their way deep into the pores must be removed, Jacobson will tell you. Palm and olive oils, as they are blended in Palmolive Soap, act to soften the skin, to cleanse the pores, to refresh the natural coloring. They provide the natural way to skin beauty.

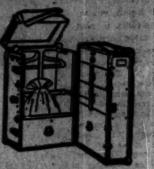

In America this is, of course, well known. Leading spe-cialists advise the Palmolive method of skin care wherever beauty culture is practiced.

The method they use is that subscribed to by Madame Jacobson. This treatment, night and morning: make a creamy lather of Palmolive Soap and warm water. With both hands massage this well into the skin two minutes, allowing it to penetrate the pores. Then rinse, first with warm water, gradually with colder. A final rinse with ice water is refreshing as an astringent.

For a dry skin, a touch of cold cream before adding powder and rouge; for oily skin, an astringent lotion, a surface application of vanishing cream before make-up. These is what specialists tell you!

Madame Jacobson, in her London salon; Lina Cavalieri, in Paris; Pessl, in Vienna; Elise Bock, in Berlin-all over the world specialists in beauty care recommend Palmolive, which is the leading soap in the United States and 48 other countries.

INTERNATIONALE

WHAT A PITY,

These Evening Slippers are NOT QUITE HALF PRICE-

"Half Price" is so appealing. Too bad this group of beautiful evening slippers which were formerly to \$14.50 are now reduced to only \$7.85! They miss being half price by only sixty cents! (Some of a second group, formerly to \$22.50, do accomplish "half price" at \$9.85.)

These evening slippers can be had at this price at the State Street Shop only.

Relief From Financial Worry

Every family, at one time or another, is con-fronted with a shortage of actual cash to meet

Perhaps an insurance premium is past due—illness comes, or an operation is necessary. Perhaps, for unavoidable reasons, bills have accumulated and must be paid. There are dozens of perfectly good reasons why, at times, it is necessary to have some actual cash QUICK.

You Can Borrow Any Amount Up To \$300

For many years we have offered a financial service to people without regular banking con-

Here you can borrow amounts up to \$300— secure the cash usually the same day—and repay in small monthly payments to suit your

Our New Rate **NEARLY 1/3 LOWER**

Loans payable in twenty equal monthly payments cost as follows:

\$ 50 Average Monthly Cost Average Monthly Cost \$1.32 Average Monthly Cost \$2.63 Average Monthly Cost \$3.94

Loans may be paid in full at any time— you pay ONLY for actual time you keep the money.

How We Make Loans

We loan up to \$300 on household goods, to men and their wives for domestic use. We do not require outside signers—signature of husband and wife all that is necessary.

Employers, relatives, friends or tradespeople are not notified—no one need know. CALL, WRITE OR PHONE

Never in any preceding February has there been such a galaxy of styles to choose from. With the completion of the Shoe Salon, every type of shoe from classic Aristo models, and the more frivolous young moderns' styles to corrective types such as Field Arch Preservers has its own particular section . . . as distinct during the February Sale as at any other time. Briefly summarized, they are:

The Shoe Salon for exclusive and ultra-smart spring and southern fashions.

Typical of the Sale Values are the advance new models pictured below:

The Women's Section—where smart spring shoes of every type are to be found including such specialized makes as Field Arch Preservers.

The Young Moderns' Section with emphasis on newness and economy —more economically priced than ever during February.

The Young Teens' Section for the girl in her teens whose footwear should be smart but practical and very moderate in price.

The Misses' and Children's Shoe Section for growing feet of every age from babyhood including College Girl and Field Junior styles.

And these by no means end the February list . . . for in the Store for Men and in the Basement styles equally new and reductions equally impressive await the February shoe shopper.

FIFTH FLOOR • FOURTH FLOOR • STORE FOR MEN • BASEMENT
ALSO EVANSTON AND LAKE FOREST STORES

Ready Today the February

FEBRUARY SALE OF HOSIERY

"Field's specials" are reduced for the annual sale

Why is the February Sale of Hosiery so important? The answer of course is that the four Field Specials with their reputation for smartness and unusual wear are placed on sale for the entire month. Chiffon, midweight, lisle welt, and all silk service—all are included and at prices that persuade the fashion-wise shopper to purchase her particular type or types for advance needs. February's prices are:

"Field Special" Chiffon, very sheer and clear allover silk with all silk heel . . \$1.45
"Field Special" Midweight, moderately sheer, allover silk, smart yet practical . \$1.65

"Field Special" Lisle welt, a heavy silk service hose with narrow 4-inch lisle top, \$1.75
"Field Special" Service, allover silk to the top, an unusually durable hose . . \$1.95

who refused to accept it. Brys demanded it wets who would not listen to them. Dry derived to the bouse of representatives jumped other nations had made their own reservations. Then apparently with truth, of wanting to get the 24,000,000 and offer it to Bishop Cannon as a means of regaining grace in the southern area. The appropriation was for a tenth of the mount Dr. Doran, the prohibition commissioner, ays would be needed for one year's attempt at inforcement. Mr. McBride has been hot and cold it, coming out of his dilemma hot. The prohibition lobby was damned by its own heretofore iddable children in the house of representatives. It was derided by its opponents, and in the end ly with truth, of wanting to get the navy is a menace to world peace.

ALD. GUERNSEY OF THE SIXTH WARD.

sey has been so busy a champion of the anti-Thompson council minority that he has neglected the welfare of his ward in the everyday matters of garbage disposal, street repair, etc. In the heat of the contest it is not impossible that the sufferings of the Sixth ward will be overdrawn by Guernsey's rival. If the Sixth ward has not enjoyed the advantages of smooth street surfaces, of regular visitations from the garbage man, of street light improvements, the other forty-nine wards have not fared much better, no matter how acquisitive their aldermen. The Thompson administration has been wasteful and it has given poor service even in the routine affairs, which generally are performed adequately regardless of executive incompetence—a failure of the city government for which the useful alderman of the Sixth ward is not responsible.

Ald, Guernsey has been a forceful and successions and the collection of the cases of pneumonia develop ampyema, or more or less purulent fluid in the pleural cavity. This proportion has known to range from one in twenty in pneumonia. In every case of pneumonia making in children to nearly one-haif the cases of epidemic influenzal pneumonias. In every case of pneumonia making in children to nearly one-haif the cases of epidemic influenzal pneumonia. In every case of pneumonia is of epidemic influenzal pneumonia. In every case of pneumonia is of epidemic influenzal pneumonia. However, pneumonia is only one of several causes of empyema. While fever, cough, and sometimes pain in the chest may cause a suspicion of empyema, and while one side of the chest may ease to be used to the cases of pneumonia develop ampyema, or more or less purulent fluid in the pleural cavity. This proportion has known to range from one in twenty in pneumonia.

In every case of pneumonia empyema should be suspected if the course of temperature during the convalescence from pneumonia. However, pneumonia is only one of several causes of empyema, or more or eless purulent fluid in the pleural cavity. This proportion has known to range from one in twenty in pneumon Thompson council minority that he has neglected

Sixth ward is not responsible.

Ald. Guernsey has been a forceful and successful critic of Thompsonism. From his council seat about it is to put a needle through the just under the Mayor's nose he has constantly chest wall. Speaking of operations on disputed a noisy council majority energetic in the heart itself, some one said the dis disputed a noisy council majority energetic in tance between the skin over the heart tance between the skin over the heart and the heart itself is less than one inch, but it took surgeons more than one thousand years to acquire the art of traveling this route. Under antiseptic prenience to the ward will be compensated by an to keep on good terms with the British that enforced economy in the city government which surgeons sometimes open into the heart opurpose would be better served if it were Guernsey will have helped to impose. Ald, Guernsey will have helped to impose. And the distance of the valves. Guernsey should be returned to the council. He has been a valuable man in working for reform and he is needed to guard the treasury during the proposed fellowship here in the United States the remainder of the present administration. wship here in the United States the remainder of the present administration.

CRUISERS AND TREATIES.

Letters to this department must be signed with names and addresses of writers. NO FUNDS FOR SAFETY LIGHTS. [Danville (Ill.) Commercial-News.]

A well meaning American who tries to read all the arguments on the business of the Kellogy peace Chicago, Jan. 28.—[Friend of the Peo-ple.]—Is it possible to have stop lights placed at the heavily trafficked crossing reaty, the new cruiser bill, and America's relation-hip to the general question of world-peace is apt to ecome somewhat befuddled. It has been a long advice. This not only brings on confusion; there is danger that it may, in the long run, create in the country a spirit that will be extremely hostile to

To begin with, the average American cannot help celling that his nation may lay claim to a rather clear conscience in reviewing the events of the last iffteen years. Greatly against our own wishes we were embroiled in a war of Europe's making which cost us a great deal and out of which we got nothing. Following the war, when we were swinging unchecked into a position of undisputed naval leadership, we voluntarily scrapped millions of dellars worth of warships and reduced purselves to equality

with England.

This done, we observed the spirit as well as the letter of the Washington treaty while other nations did not. The result is that instead of having naval equality we now have a marked inferiority in certain essential types of ship. Having accepted this situation for a number of years, we are now preparing to take steps which will bring us nearer to that equaldediam when fessing our intention to settle all international dis-ther enforce putes by pacific means. These are the facts. Now, what sort of advice have we been getting?

we were told that if we voted more cruisers it would brand us as hypocrites, despite the fact that Englan of the Anti-Saloon league. The Meth- and France, also adopting the treaty, are contin

MODERN DEFICIENCY

FROM THE TRIBUNE'S COLUMNS

65 YEARS AGO TODAY

FEBRUARY 4, 1864.

CINCINNATI.—The rebel Gen.

Early is making one of his periodical in TRIBUNE is greatly concerned about replacing incursions into western Virginia. On Jan. 29 a Union train of about eighty

TRIBUNE is greatly concerned about replacing the male shirt with a kind of smock. Most men do not, contrary to TRE TRIBUNE writer, consider them-FEBRUARY 4, 1864. incursions into western Virginia. On Jan. 29 a Union train of about eighty wagons was sent out from New Creek, heavily laden with commissary stores for the garrison at Petersburg. It was escorted by 800 men of Col. Mulligan's 23d Illinois (Irish brigade), 4th Virginia cavalry, 2d Maryland, 1st and 6th Virginia infantry, and 100 of the Ringgold cavalry. About three miles south of Williamsport it was suddenly attacked by 2,000 rebels. A hard fight ensued, lasting all afternoon. At night our forces were compelled to retreat, losing the wagon train and leaving eighty killed and wounded on the field. The Illinois Irish regiment lost heavily. The rebels then turned to attack the Petersburg garrison, which abandoned the post. The rebel generals Rosser and Gilmore are once more in the saddle, and Imboden also is moving. Gen. Kelly is preparing to dispute their further advance, WASHINGTON.—William Yohen, in charge of the contrabands at Cairo, was sentenced to five years in the penitentiary for assisting in abducting in proposal for men. Your boosting of cal-

charge of the contrabands at Cairo, was sentenced to five years in the penitentiary for assisting in abducting contrabands and selling them into slavery in Kentucky.

No. 12 of a Series on Metropolitan Chicago

America's Humorous Weekly
On Your Newstand Today

showing why Metropolitan Chicago has every possibility of becoming the world's foremost metropolita center—in population as well as in trade importance—and that in a day relatively near. Leading authorities predict fifteen million population for Metropolitan Chicago within a lifetime.

ART, ARCHITECTURE, EDUCATION, MUSIC-METROPOLITAN CHICAGO EXCELS IN ALL

N THIS series you have seen that Metropolitan Chicago holds a dominant position in manufacture, marketing and other branches of industry. Now we shall show you that Metropolitan Chicago likewise excels in cultural advantages.

In the number of its institutions of higher education, for example, Metropolitan Chi-

cago stands first among all cities of the United States. Metropolitan Chicago has 32 such institutions as compared to 29 in New York City, 22 in Boston and 19 in Philadelphia.

Metropolitan Chicago has two universities among the 26 that have attained a standard resulting in membership in the Association of American Universities; no other city has more than one such institution. President Walter Dill Scott of Northwestern University says, "Chicago today is the greatest

educational city in America and the center of higher learning in this country."

Metropolitan Chicago is first among all cities of the United States in the number of its libraries and the number of library books circulated. It is first, too, as a center of art instruction. One out of every four painters, sculptors, illustrators, designers and art teachers of this country is trained in the Chicago Art Institute, ranking among the world's leading art

In music, too, Metropolitan Chicago ex-cels. The Chicago Symphony Orchestra stands at the forefront of all such organizations throughout the world. Chicago Civic Opera, soon to be housed in its magnificent new home; open air opera at Ravinia; the North Shore Music Festival, and Chicago's well patronized concert

stage, bring to Metro-politan Chicago the finest musical talent.

In architecture, Metropolitan Chicago has pioneered. The World's Columbian Exposition, held in Chicago in 1893, established a new era of American architecture. The world's first steel-frame skyscraper was erected here in 1889. And now again Chicago is pioneering by introducing new architectural advancements in skyscrapers recently completed

All Morte Light

and under construction.

Metropolitan Chicago has grown from trading post to metropolis in less than 100 years. This growth has been not alone in population and industry, but also in those things that make for better living and more wholesome enjoyment of life. This balanced growth augurs especially well for the future of this youngest great metropolis!

This series on Metropolitan Chicago, when completed, will be bound in booklet form. Address Public Service Company of Northern Illinois, 72W. Adams St., Chicago, and a copy will be reserved for you. There will be no charge.

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

Supplying Electricity and Gas to 6,000 square miles, including the Metropolitan Area into which Chicago is growing.

Metropolitan Chicago includes the City of Chicago and the territory within 50 to 75 miles of the Chicago City Hall.

ARMY SEEKING SEMI-AUTOMATIC SHOULDER RIFLE

Conduct Shooting Tests This Summer.

(Chiese Prime Pres Service.)
Washington, D. C., Feb. 3.—[Special.]—Examination of the hearings held before the house sub-committee in charge of the army appropriation bill discloses that the war department hopes to begin equipping the regular army with semi-automatic shoulder rifles within the next two years.

The new rifles would be utilized to replace the present 30 caliber service rifle with which the infantry, cavalry and artillery now are armed. By the adoption of the new weapon, the army high command believes the fire power of the army would be greatly increased.

According to Maj. Gen. C. C. Williams, chief of ordnance, the soldier armed with the new semi-automatic weapon would have twice as much fire power as the soldier with the present service rifle. Competitive tests for various types of semi-automatic rifles have been ordered for this apring and summer, and according to present

UNDERGROUND

plans the type of semi-automatic rifle which the army will adopt as standard will be decided within a year.

Find Pederson Rifle Good.

resent indications are that the new al-automatic weapon will be of hity amailer caliber than the pres 30 caliber shoulder weapon. Saictory results have been obtained the Pederson rifle, a .276 caliber al-automatic, and the tests to be this spring will be with rifle the smaller caliber ammunition.

We are coing to have a compact

the Pederson rifle, a .276 caliber successful, and the tests to be this spring will be with rifle g the smaller caliber ammunition. We are going to have a competitest this summer in which we enter the Pederson rifle in competition with others submitted by other mers," Gen. Williams testified, e weight of the bullet of the .278

Chicago Freight Tunnels A service to Shippers that has become a Built-in System

Story of the Freight Tunnels

It was in 1909 that the tunnels were finally completed. As soon as rolling stock was procured and other equipment installed, operations began, substantially as they are carried on today. The total cost was about \$30,000,000. The earnings were a disappointment and the then corporate owners, the Illinois Tunnel Company and the Chicago Warehouse & Terminal Company, passed into receiverships. In 1912 there was a reorganization and the Chicago Tunnel Company was formed to take over the property of the Illinois Tunnel Company while the properties of the Chicago Warehouse & Terminal Company were restored to it. During the receivership a new telephone plant was built. This was also unsuccessful and in 1917 all of the telephone property was sold, by permission of the City Council of Chicago, and all the properties have since been operated exclusively as a transportation system.

INDISPENSABLE to the "Great Central Market" are adequate shipping facilities—easy access to freight terminals and a speedy means of reaching them.

The Chicago Tunnel Company and the Chicago Warehouse & Terminal Company have been providing such facilities so long that their services have become a system built in to the great scheme of marketing—a system that simplifies the methods and shortens the time and distance between shipper and railroad.

Private connections with the tunnels—approaches, switches, shafts, elevators and tracks—give these facilities to many commercial concerns and large warehouses; four universal freight stations—near the Loop but away from its congestion—give them to thousands of other shippers. So dependent are the shippers on tunnel services that, in many cases, their loading space for teams and trucks is unusually small. Shippers, as well as the tunnel companies, have spent many thousands of dollars on these connections; the entire investment runs into many millions.

The freight tunnels—40 feet below the street surface and 62 miles in total length—have been demonstrating the superiority of their services for twenty years. Speed, safety, cleanliness, and the saving of time and money are their daily contribution to the city, the railroads and shippers, and

The greater the traffic in the tunnels
The smaller the traffic on the streets

The CHARM of Oriental Rugs in the HOME REFLECTING in symbol, design and tone the atmosphere of their creators—the drowsy quiet of Persian gardens—the vast stretche

REFLECTING in symbol, design and tone the atmosphere of their creators—the drowsy quiet of Persian gardens—the vast stretches of tawny desert—the silent mosque, the romance, the mystery and the color of the East, Oriental Rugs add charm and decorative interest to the furnishing of the home beyond all proportion to their cost. And they are the most enduring of floor coverings, with little or no depreciation after years of use. A few are listed below at extremely moderate prices and are worthy of your early inspection.

THE TRIBUNE can do your

RENTAL JOB

Alone!

THOUSANDS of families in metropolitan Chicago are looking for apartments. Of these thousands, the Tribune reaches 62% every day, 125,000 more than any other daily, and 74% on Sunday, 233,000 more than any other Chicago newspaper.

Moreover, the Tribune Want Ad section draws the eyes of every one looking for an apartment because of its tremendous lead in apartment to rent advertising. During 1928, Chicago gave the Tribune 64% of all its Want Advertising in this classification, 81% more than all other Chicago

newspapers combined! And people always look first where they'll find the greatest number of offers.

When the Tribune, daily and Sunday, reaches nearly every one you want—when it is consulted first by every one looking for apartments—you need no other medium to do your renting job. The Tribune, daily and Sunday, can do the job alone! Make 1929 your best year by concentrating upon a smashing job in the world's greatest renting medium—the Chicago Tribune Want Adaection! Call

important handicap over the rest tinent? the prize fighters. He is ambias, industrious, and methodical. It ms that he once sat down and estimated that the heavyweight chambally would make him a millionous, and decided that even a prize which as which as which as the same than the s Finally Locate Rendezvous.

It took considerable sleuthing to locate that the heavyweight chamship would make him a million, and decided that even a prize of should be willing to study his and practice and persevere for million dollars. This is a point of that has been adopted by only other prize fighter, and that one, a Tunney, won the championship made two millions.

The ris last previous fight, Joe the high sopponent, Max withto a prize fighters' seminary at mit. N. J., and ground away at sessons. He had not done very against Sekyra, being unable to him often.

Finally Locate Rendezvous.

It took considerable sleuthing to locate the rendezvous of the honkers.

Doland had taken us clear to the ocean beach via the canals and bayous which are the only avenues and boule varies through the refuge. Here after watching a few flocks of geese in flight and noting where they dropped down to the marsh, Doland figured the exact location of their pow-wow.

"There is a fresh burn due west of where we are standing," said Doland. "That's where they are 'using,' because geese always like a place in the marsh which, following a recent grass fire, has begun to sprout new grass. They feed on these tender green shoots."

marsh which, following a recent grass fire, has begun to sprout new grass. They feed on these tender green shoots."

The burn located, we hitched up our boots and started through the salt water marsh which stretched away from the beach as a flat wet floor of mud inhabited by thousands of fiddler crabs. We had to circle north of the greese in order to approach them up-

After three quarters of a mile of heavy navigation under a hot sun we plunged into some six foot marsh tambigating glare. He does not either, and when some one of marination laughs at his glare its him on the ear he casts side at the ropes, as though estition to the height and preparing to over them.

The height and preparing to over them.

The height and preparing to over them.

BY WILFRID SMITH. Chicago's Bruins defeated the Fort Wayne Hoosiers, leaders of the pro-league, last night at White City, 31 to 25, before a capacity crowd, which was the most partisan that has seen a Chicago game this season. The Chicago victory, coupled with Cleveland's victory over New York last night at race for the American league title deadlocked between Fort Wayne and

These teams meet tonight at Fort Russell, Ely Scoring Stars.

Victory last night went to the su-perior team. The Bruins started, a step ahead of the Hoosiers and, with the exception of the opening minutes of the second half, when Fort Wayne took a brief two point lead, stayed

Capt. John Russell and Gil Ely, the Capt. John Russell and Gil Ely, the Bruin's guards, set the scoring pace. Between them they netted 20 points, Ely getting 11. Borgeman and Glasco, and later Rus Saunders, the Hoosier forward, on whom devolved the task of stopping the Bruin stars, failed, and in turn couldn't maintain their opponents' goal shooting accuracy. Tillie Voss, who outjumped Rus Saunders at center in the first half, added defensilys strength. Rus didn't

DETROIT LASS IS STAR OF MEET AT MINNEAPOLIS

Clips Mile, 440 and 1-6 Mile Marks.

Minneapolis, Minn., Feb. 3.—67.
Brilliant feats by Allen Potts of Brooklyn, N. Y., and Douglas Ellison of Chicago, winners of the men's senior and intermediate international outdoor amateur speed skating championships, were overshadowed on the concluding day of the national blade classic here today by the world's record smashing feat of Loretta Neitzel, smiling lass from Detroit, Mich. She skated one mile in 3:164-5 and 440 yards in :392-5, both world's records, Then, to add to her accomplishments, the Detroit girl set out to better her own world's mark in the one-

ments, the Detroit girl set out to better her own world's mark in the onesixth mile, and turned the trick in a
race against time, even after stipping
on the first turn, giving her three new
records in a single day.

The 10,000 spectators who circled
the course marveled at the performance of the new national women's
speed akating champion. Miss Neitzel had an incentive for her races,
learning this morning that Lelia
Brooks Potter of Toronto yesterday
had bettered her time in the one mile.

Beats Record Five Seconds.

Beats Record Five Seconds.

It was then that Miss Neitzel made known her intentions of setting up a new mark in the one mile, giving little heed to the 440 event. But the Detroit girl outdid herself in the quarter mile and circled the track so swiftly that she clipped five seconds off the record formerly held by Leila Potter. Elated in learning that she had lowered the quarter mile record, the girl a few minutes later was trying to add the mile record to her collection. She left all of her pursuers with the exception of Marie Becker well in the rear by the time she had covered two laps. On the third swing, even the Chicago girl wilted and from there on Miss Neitzel had the race all to herself. She showed no signs of slowing up and finished strong, nearly a half lap in front of the second place winner, Mildred Bjork of Minneapolis. Summaries:

MEN'S SENIOR 440 TARDS—Won by Allen Potts, Brooklyn; Cornelius Ewerts, Chicaro, second; Fred Einer, Milwankes, third. Time, 137 4-5,

MEN'S SENIOR HALP MILE—Wen by Wallace Mitchell, Chicago; Malyin Johnson, Minneapolis, second; Cornelius Ewerts, Chicago, third. Time, 1:31 2-5.

MEN'S SENIOR 1 MILE—Won by Wallace Mitchell, Chicago; Allen Potts, Brooklyn, second; Harbert Ennium, Chicago, third.

OPALS WIN DERBY

Led by Oneil Farrell, a Tarsums Silver Skates winner, the Opal A. A. carried off team honors in the second annual ice skating Derby of the Hyde post of the American Legion yesterday on the Jackson park lagoon. Farrell won the two class A events.

The Opal A. A. star took the quarter mile after an interesting race with Ray Wandrs of the Amphion A. C. Art Peters of the Barrett A. C. pressed Farrell for honors in the mile event.

Central Trust Company of Illinois, Chicago, and Aksel K. Bodholdt, Trustees

Mr. A. P. Barrett, Chairman of the Board of Directors, summarines his letter as follows: BUSINESS: Tenns-Louisiana Power Company is a public utility operating Company organized under the laws of the State of Delaware in 1925. The Company upon completion of present financing will serve without competition 30,192 electric and/or gas customers and 4,052 water customers in 141 growing communities located in Texas, New Mexico, Louisiana and Kastucky and (through subsidiaries) in Otlahoma and Arisona, over 85% of its business being transacted in Texas. Artificial to plants are operated in connection with electric properties in 14 communities and independently operated ice plants are located in the important centers of Houston, Fort Worth, El Paso and Gainesville, Texas. Through subsidiaries transportation service is furnished to Wichita Falls with interarban connections to Fort Worth, Texas.

CAPITALIZATION (Upon completion of present financing):

\$10,350,000

SECURITY: These Bonds, in the opinion of counsel, will be secured by a first moregage on all fixed properties of the Company now owned and to be presently acquired, subject to \$252,500 of purchase money mortgages. Based upon an appraisal by Messra. Victor A. Dorsey and Company and plus subsequent capital expenditures to December 31, 1928 and expenditures for properties to be acquired in connection with present financing, the fixed properties subject to the mortgage have an estimated reproduction cost new including going concern value, less depreciation, of not less than \$18,400,000. The Company also owns all the outstanding common stocks (except directors' qualifying shares) of certain subsidiary companies, which are not pledged under the mortgage, the properties of which companies have a value, appraised as above, in excess of \$2,000,000. These subsidiary companies have outstanding in the hands of the public \$300,000 of funded debt and preferred stock.

EARNINGS: The following is a statement of earnings, as reported by the Company, of the properties owned in those to be acquired in connection with present financing by Texas-Louisiana Power Company and sub-far the twelve months ended December 31, 1928:

Gross Earnings from all sources. \$3,435,941
Operating Expenses, Maintenance and Taxes (except Pederal Income Taxes) and Prior Charges. 1,854,481

est Requirements on First Mortgage Six Per Cent Gold Bonds, Series A, (including

PURPOSE OF ISSUE: The proceeds of this financing will be used to reimburse the Company for construction expenditures, to retire existing equipment obligations, for the acquisition of additional properties and/or for

MANAGEMENT: The Company (subject to the control of its Board of Directors) is under the control of General Water Works and Electric Corporation through ownership of all its outstanding common stock. The properties are operated and supervised by men of long and active experience in public utility activities.

These Bonds are offered when, as and if issued and received by us and subject to the approval of counsel, Mesers. Chadbourne, Hunt, Jacchel & Brown, New York and Mr. Frank B. Black, Chicago. It is expected that Definitive Bonds will be ready for delivery on or about February 11, 1929.

Bloedel Donovan Lumber Mills

6% Serial Gold Notes

MATURITIES AND PRICES

The following information has been obtained from official source

History and Business: In 1898, J. H. Bloedel, J. J. Donovan, and associates organized the Lake What-com Logging Company with a capital of \$6,000. Two years later they organized the Larson Lumber Com-pany with a capital of \$30,000. These two companies were reorganized in 1913 as the Bloedel Donovan Lumber Mills. Of the present capital and earned surplus amounting to more than \$7,576,921.20, about \$7,000,000 represents accumulated earnings on the original capital. The Company has been under the same management since its inception 30 years ago. It is today the largest producer of forest products under one management on the Pacific Coast. Its products are sold direct to the trade in nearly every State in the Union as well as the principal countries of Europe, South America, China, Japan and Australia.

Plants: Manufacturing plants consist of four saw mills, three planing mills, a box factory, a sash and door factory and three shingle mills. These plants employ 1600 men and have a daily capacity of over 1,000,000 feet of lumber, 500,000 shingles, 500 doors and 140,000 B. M. feet of boxes. Six logging camps are in active operation employing 1400 men and producing about 1,400,000 feet of logs per day. Approximately 140 miles of standard railway is owned by the Company and used in their logging operations. Over \$3,000,000 has been expended in the past five years in extensions and improvements to main line railway, plants and equipment.

Timber: The Company owns or controls 60,000 acres of standing timber in Western Washington containing 3,200,000,000 feet. Of this it owns in fee simple 13,500 acres containing over 627,000,000 feet with a value based upon the appraisal of James D. Lacey & Co. of \$3,157,422.58. The balance is held under cutting contracts or controlled through affiliated companies. The Company also owns in fee simple over 28,000 acres of logged off land. Sales of similar land over a period of 15 years have averaged \$27.50 per acre.

Security: Under the terms of the indenture the Company agrees that so long as any of these notes are outstanding it will create no funded debt or issue any indenture notes, bonds or other obligation similar to the notes of this issue; that properties now owned will at all times be free and clear of encumbrance. The Company also agrees to maintain at all times net quick assets equal to at least the amount of these notes outstanding and total assets in an amount equal to two and one-half times its total liabilities.

Sales and Earnings: In no year since its inception has the Company failed to show a profit. The sales and earnings as certified by Messrs. Ernst & Ernst for the past three years are as follows:

1926..... 1927..... 1928.....

Earnings applicable to interest, after depreciation, for the past three years have averaged \$844,168.22, equal to 7 times annual interest requirements of this issue.

longest maturity if not used for the purchase of additional timber. Sinking Fund: Terms of the indenture under which these notes are issued require the Company to create a sinking fund on the basis of \$1.00 per thousand feet Purpose of Issue: The proceeds from the sale of this issue of notes will be used to reimburse the Company in excess of 100,000,000 feet cut from its own timber in any one calendar year, such sinking fund to be used for timber purchases and for other capital expenditures and to provide additional working capital.

"Greater demand by investors for securities with conversion privilege is evidenced in the present market," Schluter & Co., investment bankers, say. "When an investor's money is loaned to a company for increased working capital or expansion purposes, it is reasonable for him to expect to snjoy, to some extent, the increased prosperity that may come to that company from the use of his money.

After Several Weeks of Hesitation About the Middle of January, Stock Prices Resumed the Upward Trend

Will Charts Replace Old 'Giants of Financial World'?

BY SCRUTATOR. Business tends more and more to institutional lines. The growth of corporations, both in number and in size, and the spreading out of partner-ships into hundreds of thousands of hands has centered the public atten-

s notice to stockholders says the served from the sale of the seek will be used to purchase admissional squipment needed because of say's net profit last year was 125, the largest in its history and screase of 26.63 per cent over 1927, as equivalent, after preferred divides, to \$6.42 a share on the company of the common stock. After paying \$2 a share she common stock, surplus was interested to the common stock, surplus was interested to the common stock, surplus was interested to the common stock.

But some personalities do persist were in a time when people hire investment trust managers whose names they don't know to invest their money for them. There is Chrysler, who began as a railroad worker and became head of the corporation that ranks only behind Ford and General Motors in the automotive field. And outstanding in the railroad world are the Van Sweringens, O. P. and M. J. Comparative youngsters—neither is yet fifty—the Van Sweringens of Cleveland have occasioned probably more comment in the last thirteen years than any other two railroad world are the Nickel Plate, the Chesapeake & Ohio, the Pers Marquette, and the Buffalo, Rochester & Pittsburgh railroads.

From that one event came their furthers have been speeded sup measurably in the last ten days. Sales of heavy clothing and footwear expensed to the surface as newspoys in Cleveland. In early youth they became they worked as newspoys in Cleveland in real estate and founded their fortunes with development of a residence section in the Ohio city.

It was far from the beaten track and they had to furnish transportation for their buyers. So they financed a rapid transit line—this when they wanted a right of way for this line over the Nickel Plate tracks. The Nickel Plate tracks. The Nickel Plate tracks are reported excellent.

Rise in Copper.

Copper was advanced to 17½ cents last week, the third rise since the first of the year. Foreign and domestic demand are impressive and operations at the mines have been speeded sup measurably in the last ten days. Sales of heavy clothing and footwear expended to the control the first of the year. Foreign and domestic demand are impressive and operations at the mines have been speeded sup measurably in the last ten days. Sales of heavy clothing and footwear expended to the control the first of the year. Foreign and domestic demand are impressive and operations at the mines have been speeded sup measurably in the last ten days.

Pittsburgh railroads.

For five years they have been trying to combine these properties into one system, at times leaving certain ones out, but have never been able to

"At times like the present, when sociates in the five railroads the attention of the public is directed value of 84 million dollars.

Many Lines Report for January.

[Chicago Tribuno Press Service.] New York, Feb. 3.—The eyes of the world are on the spring. present indications are of an active opening of trade when weather con-ditions become more settled. There has been a gradual stepping up of operations in the basic industries during the last ten days and many of them—notably iron, steel and motors—are now operating at a rate consid-erably above this time last year.

an additional backlog to sustain operations, which now are at 80 to 85 per cent of capacity for the industry as a whole. Stormy weather in many sections of the country and resultant impassable roads have contributed to a moderate slackening of retail buying.

Trade is Excellent.

Reports received by telegraph from the federal reserve districts indicate

with a financial plan. In 1925 it was brought out in a hearing at Washington that they obtained control of the Nickel Plata, the foundation of their rail fortune, by putting up \$520,000 and risking their holdings in real estate and an electric road at Cleveland.

The net result of their merger proposals so far has been a permission for the Chesapeake & Ohio to purchase the Pere Marquette. The acquisition of the Erie by the former company was denied on the ground that it would mean the allocation of an important trunk line from Chicago to New York before any general plan for the formation of competitive sysfrom the New England section, wher for the formation of competitive gystems in the east had been adopted.

How far the brothers might have gone with railroad merging in the old unrestricted days is difficult to say. year and general business is getting into its normal stride much earlier

t is reasonable for him to expect to mjoy, to some extent, the increased prosperity that may come to that company from the use of his money.

The same fraternity, it is true, held giant infant industry, radio, brought issues of that group to the fore with an additional backlog to sustain operations, which now are at \$10.40 feet affirmative.

Neither money market nor stock advances ranging over 25 moints. of twenty-eight years ago.

Neither money market nor stock market in 1901 was willing to recognize economic precedent as of any value; yet two years later, when the value; yet two years later, when the seemed again to be agreed that, after all, "what has been will be."

Massing of Capital.

It is admitted on the other hand, in 1979, that some of the underlying "prewar influences" have disappeared, perhaps forever. The imperfect banking system, the scattered gold reserve, America's dependence on the financial vicissitudes of Europe, are gone, and the resultant change is dif-

BY GEORGE HAMMOND.

Advancing prices again predominated in another active week on the Chicago stock market. Total sales of 1,704,000 shares were registered, compared with 1,536,000 a week ago and 411,000 shares a year ago. For the year thus far the total stands at 7,452,000, against 1,991,000 shares.

The fifty most active stocks of the week were enhanced \$16,299,792, or 2.59 per cent, in market value ever the week. The total value of these stocks stands at \$465,354,492, compared with \$629,054,700 a week ago, according to a compilation of Lage & Co.

The annual report of the John W.

By GEORGE HAMMOND.

By G. Dahlberg, president, announced that export business for 1929 has started at a rate of 100 per cent in excess of 1928. The company expects to ship 100,000,000 square feet of insulated board to foreign countries this year.

Warrants Expire.

Associates Investment ran up four points in the last days of the week, due to the expiration on Feb. 1 of warrants attached notes smithing holders of each \$1,000 note to purchase six shares at \$40 a share. With these warrants out of the way buying from incress close to the company was reported.

\$10,500,000

Consolidated Gas Electric Light and Power Company of Baltimore

First Refunding Mortgage Sinking Fund Gold Bonds

Dated March 1, 1929

In opinion of counsel, these Bonds will be legal investments for Savings Banks in New York, Rhode Island, Maine, New Hampshire, Vermont, Minnesote and California.

BUSINESS: Company does entire gas, electric light and power business in Baltimore. Its operations extend into suburbs and surrounding counties. Steam for heating is also supplied to central, business district of Baltimore. Electrical generating capacity, owned or available under contract, is 446,000 h. p. Total population now served is about 975,000. For year 1928, electric sales were 738,033,805 k.w.h. and gas sales 11,531,293,950 cubic feet.

PURPOSE OF ISSUE: The proceeds of these \$10,500,000 Bonds, together with additional cash to be supplied by the Company, will be used (a) to refund \$10,265,000 Consolidated Gas Electric Light and Power Company of Baltimore First Refunding Mortgage Bonds, Series A 6%, due February 1, 1949, which have been called for redemption at 105 on April 5, 1929, thereby decreasing bend interest charges by \$128,312 per annum, and (b) to reimburse the Company, in part, for cost of property additions and extensions.

SECURITY: These \$10,500,000 Series G 43/4% Bonds, upon completion of this financing, (equally with \$4,982,000 Series E 51/2% Bonds and \$15,947,000 Series F 5% Bonds previously issued, and with \$5,407,500 Series F 5% Bonds in the treasury of the Company, when issued) will be secured, subject to underlying liens, by mortgage on all property now owned or hereafter acquired. The First Refunding Mortgage makes prevision for the refunding of all underlying issues.

~ احد				THE PERSON
Year enabed Dec. 31	Come	Not Earnings Before Depreciation	Charge	Them Plant Charges
1921	\$16,612,388	\$6,027,806	\$2,826,184	2.13
1922	20,376,084	8.924.357	3.219.351	177
1923	22,221,699 -	9,633,107	3,088,722	3.12
1924	21,711,9281	8,647,926	3,074,365	2.81
1925	23,092,2091	9,974,699	3,036,391	3.29
1926	25,089,2191	10,054,745	2,929,772	3.43
1927	25,004,529§	9,876,472	3,070,133	* 3.22
1928	26,562,311	11,112,103	3,047,522	3.65

Net earnings for 1928 of \$11,112,103 (before deducting \$1,890,940 for depreciation) were more than 3½ times annual interest charges on total funded debt to be outstanding upon completion of this financing.

The Company's gas and electric rates average lower than those in any other large city on the Atlantic seaboard.

EQUITY: The Company has outstanding a total of \$19,875,700 par value Preferred Stock, issued in Series, and 949,462 shares no par value Common Stock. The total indicated market valuation at current quotations for the Preferred and Common Stocks outstanding is more than \$115,000,000, as compared with total bonded indebtedness of \$59,666,000 principal amount, upon completion of present financing. Continuous cash dividends on the Common Stock have been paid since 1910.

FRANCHISES: All the Company's gas and electric franchises are unlimited as to time and no other company can enter field without consent of Public Service Commission of Maryland. The grants and conditions of the Company's franchises are satisfactory.

THE PUBLIC SERVICE COMMISSION OF MARYLAND has clearly recognized the principle that, as capital required for the growth and development of public utilities companies must be secured from the investing public, investors must in turn be assured that rates will be authorized which will insure safety of investment and continuity of return.

Price 100 and Accrued Interest, Yielding 43/4%

These Bands are affered when, as and if issued and received by us, and subject to the approval of the Public Service Commission.

It is expected that temporary Bands of the Company will be ready for delivery on or about March 4, 1929.

THE SAFETY OF THE NEW HORD

SAFETY, comfort, reliability, economy, speed, acceleration, beauty-these are the features that make the new Ford such a good value. Of all, there is none more important than SAFETY.

The safety of the new Ford comes not only from its efficient brakes, but from many other factors. Among these are ease of steering and control, the Triplex shatter-proof glass windshield, and the sturdy, balanced construction of the car. This includes the enduring quality of mechanical parts as well as the structural strength of the body.

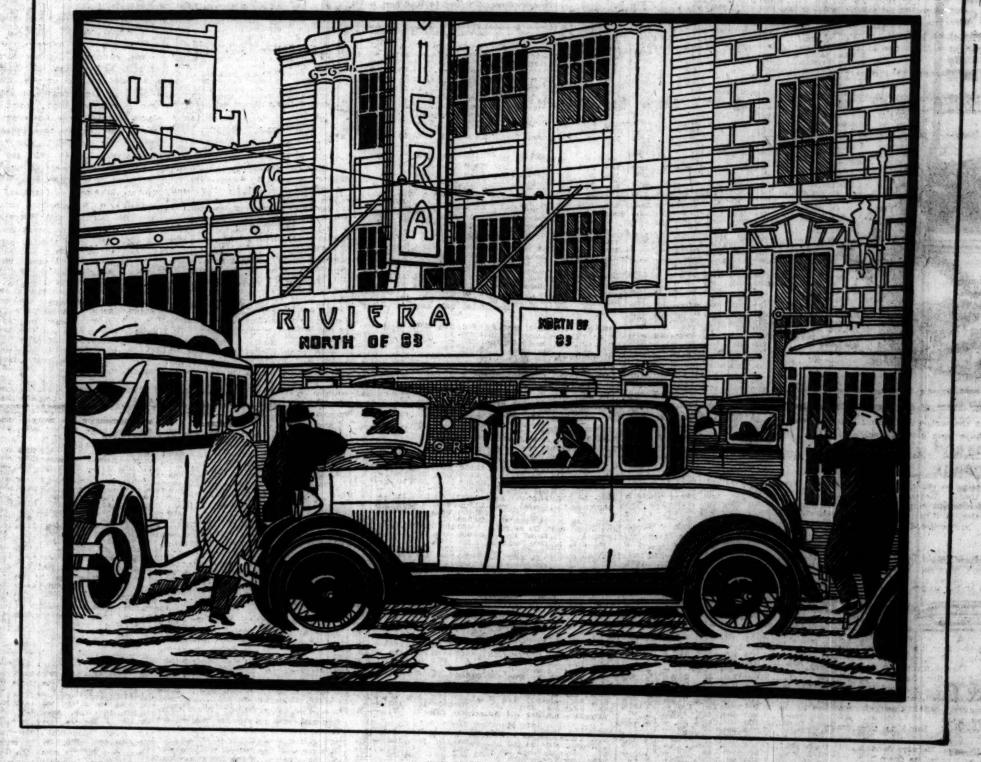

A particularly interesting feature of the Ford car is the manner in which electric welding has been carried forward to new usefulness through the creation and development of hundreds of special machines.

Electric welding gives simplicity and strength

This very important and increasingly valuable tool of modern manufacturing makes it possible to use one-piece units instead of several parts riveted or bolted together, with resulting gain in strength and simplicity.

Electric welding also permits the use of steel forgings instead of castings or stampings, without increase in weight or greatly increased cost.

Steel forgings are used not only in the front axle, steering gear, transmission, clutch, drive shaft and rear axle housing of the new Ford, but in the shock absorber parts, the emergency

brake lever, the torque tube flange and everywhere else where great strength is required. The strength of forgings makes for unusual safety.

Another safety factor worth noting is the manner in which the new Ford holds the road at all speeds. This is due to the low center of gravity, the carefully planned

Beauty and utility are combined in unusual degree in the new Ford. Shown here is the Ford Coupe-an especially good car for the woman driver because it is so safe and reliable and easy to control.

balance or distribution of structural and mechanical weight, and the low ratio of unsprung weight to sprung weight. The coordinated action of the transverse springs and Houdaille hydraulic shock absorbers controls exaggerated bouncing.

All six brakes are fully enclosed

One of the outstanding features of the new Ford, of course, is its mechanical, internalexpanding six-brake system. This is unusually reliable and effective because the surfaces of all six brakes are fully enclosed. There is no possibility of water, dirt or oil interfering with brake action under any condition.

The silence of these brakes is another thing you will appreciate. Screeching and groaning have been eliminated by a special self-centering action—an brings the entire surface of the brake

shoe in uniform contact with the drum the instant you press your foot on the pedal.

The value of the protection afforded by the Triplex shatter-proof glass windshield of the new Ford is shown by a recent survey indicating that 65% of injuries in automobile accidents are due to flying glass. The windshield in the new Ford is so made that it will not shatter under the hardest impact. Particularly where there are women and children, it is an important safety factor.

Ease of steering and control are additional factors in the safety of the new Ford. The steering gear is what is known technically as three-quarter irreversible. This means that the bumps and jolts of the road are fully absorbed by the wheels and steering mechanism of the car and are not transmitted to the hands of the driver. A slight touch is sufficient to guide the car. Yet you always have that necessary feel-of-the-road.

The ease of shifting gears, quick accelera-

tion, abundant power and speed for every emergency, and full vision front, side and back, are other points exclusive Ford development which FORD MOTOR COMPANY to remember in considering the unusual safety of the new Ford.

FEATURES OF THE NEW FORD

Mechanical, internal-expanding six-brake systemwith braking surfaces of all six brakes fully enclosed. Silent operation is another feature

OUICK RELIEF FROM

CONSTIPATION

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.
Dr. Edwards, a practicing physician for 20 years and calomel's old time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.
Olive Tablets do not contain calomel, just a healing, soothing vegetable laxative mixed with olive oil.
No griping is the "keynote" of these little sugar coated, olive colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night to keep right. Try them. 15c, 30c, 60c

GLADYS HUNTINGTON BEVANS

"Through illness in my own home have personally had to play house-eper and did not 'scratch the surace of a good day's work' or 'merely tab at current jobs,' and have failed of find where you women have cause or complaint.

"I sure get sick at the moaning overburdened women, and would uch rather be doing housework than lice work any time, from the stand-int of a hard day's work.

"A woman does not have to face the fact that, regardless of the weath-, physical condition, etc., she has get out to do her work. She does woman's or misses before she arrives at the subways before she arrives at the task that confronts her for the daywhen she does make a trip downtown she's worn out for a week with 'what she went through'—and then live a life of routine for eight or nine hours, whether you be employer of employs, facing again when the day is done the trip home and then finding at seven or right o'clock she's worn out from what?

"The answer? Getting up to get your breakfast—fooling around with a dust cloth, preparing her lunch at her leisure, doing a washing or ironing of an hour or two [maybe], and waiting to tall you how tired she is.

"Believe me, women have no cause for complaint, other than what they make for themselves, and if each day they would go about their tasks with system their 'burdens' would be much less.

"As for 'women's work being never done,' I wish I could live their life of fun.

"Any business women, in comparison to the women at home, I am sure can agree to this point of view, which in the subways before she arrives at the feminine appeal of this charming blouse with the flattering jabot with picoted edges slipped underneath the feminine appeal of this charming blouse with the flattering jabot with picoted edges slipped underneath the feminine appeal of this charming blouse with the flattering jabot with picoted edges slipped underneath the feminine appeal of this charming blouse with the flattering jabot with picoted edges slipped underneath the front neckband, with the bow of self fabric stitched at the center front hipband for decorative effect. Inverted tucks are at each side of the center front at the shoulders. Tomato red chiffon with matching faille silk crêpe trim, crêpe astin, lamé, georgette crêpe, and crêpe de chime are appropriate materials.

The pattern, 2863, comes in sizes 16 and 18 years and 36, 38, 40, and 42 inches but measure. Size 36 requires 2 yards of 40 inch material with % yards of 32 inch contrasting.

Write your name and address plainly on dotted lines, giving number and cive for su

"Any business women, in comparing to the women at home, I am sure in agree to this point of view, which is might say is equal to that of the in, but as for the housewife, I am sured the mention of such a superior of the mention of such as superior of the mention of such

"If you are a business woman, which you must be writing for a part of a living, I can bet my last dollar you will take the house duties any day rather than the 'goat' slaving for a living, eh? same as me."

The query is suggested for a beauty slogan. A good one, don't you agree?

The query is suggested for a beauty slogan. A good one, don't you agree?

The color of your new frock is flattery in you can begin at the shoes and work up to the crown of the head asking: Does it flatter? If the foot is short and inclined to chubbiness a shoe of greater length and narrower width might flatter the foot considerable.

A FRIEND IN NEED

BY SALLY JOY BROWN.

Oil Stove to Give.

"I have an oil stove, a splendid heater, which we are not using. It could be put to use by one of your rewell and narrower width might flatter the foot considerable.

It's no flattery to maid or matron if a pair of knobby knee joints broject themselves on the horizon.

"Does it flatter?"

The flatter?

The clear is agent to go a beauty and politically and the suggested for a beauty of can be an all the shoes and work up to the crown of the flatter?

The flatter?

The flatter?

The flatt

inginia races, 'barbecutes,' and political dinners.'

The recipe is: Clean, wash, and font tree squirrels. Lay in sait and water or half an hour. Put them into a coad pot in this order: First, a layer, the continued fat sait port, then one of inneed onions; next, of parbolied potests, siliced thin; then follow successive years of green corn cut from the cob, ima beans, and the squirrels. Proceed in this order: Serve with black, and more likely with agence pepper, until all the materials are used up. Cover with four quarts of boiling water and put a light in the pot. Stew gently for here hours before adding a quart of commotes peeled and cut into bits, two tesspoonful of eait. Cook an hour more: tit in four tablespoonfuls of buttler, cut up in two of Gour, boil three minutes, and turn into a tirreen. Chickens, lamb, and weal may be used in place of squirrels, also 'old have."

At this season one can get rabbits for this stew, and probably it is not necessary to have them old; and it know of people who shoot equirrels well, the whole figure proportions?

The recipe is: Clean, wash, and fort themselves on the horizon.

The recipe is: Clean, wash, and fort the saire is sure to make it most comfortable and coxy, and if you'd like it, write em; please do not telephone.

Offers a Wringer.

Wouldn't there be more flatter the generatory to go you wash day should not be such a light like it, write may please of your wash day should not be such a light like it, write may be used in place of squirrels, also 'old the slogran be better applied?

Does the flatter? Where to be more applied?

Does the preading waistline flatter?

Wouldn't there be more flatter? Where is go you wash day should not be such a tablespoon flut of the slogran be better applied?

Does the flatter? Where to be more applied?

Does t

At this season one can get rabbits or this stew, and probably it is not secessary to have them old; and I mow of people who shoot squirrels ilmost in the boundaries of some of our cities, even our largest ones. There have been many adaptations of this stew, but we have given Marone Harland's because of her affirmation that it was the old recipe. However, we feel a little skeptical about t, because a hundred and fifty years ago the use of tomatoes in cookery was a rare thing.

As to old rabbits, we recommend that the cook try to find out whether they are old or not. I have not had much experience in cooking rabbits, but I know it is a great mistake to treat a young one as you do an old.

outdoor garden later when the weather is warm enough.

The bureau's instructions for making a garden in a cigar box are: Take the lid off, bore a few holes in the bottour so that water will run out casily, and then put in broken pieces of dishes to keep the soil from sifting through. Fill the box with fine dirt to within one inch of the top.

If the soil is still frozen it is easily hawed out by putting it near the furnace. Sprinkle a little sand in the soil and pack it into the box with a cold and pack it into the box with a cold are ruler and press furrows or ditches into the soil the long way of
